

Job Description

Web Developer/Programmer

We are searching for an outstanding front-end web developer excited about working full time in a small team environment. Candidates should be current in today's web practices and ready to begin integrating solutions into new and existing websites.

Essential Duties & Responsibilities:

- Work closely with project managers and designers to produce finely tuned web products.
- Convert raw images and layouts from a graphic designer into CSS/XHTML themes.
- Communicate to the project manager with efficiency and accuracy regarding progress and/or delays.
- Alert colleagues to emerging technologies or applications and the opportunities to integrate them into operations and activities.
- Work with cross browser compatibility issues to ensure proper user experience.
- Must be able to work in multidisciplinary teams on various projects.
- Must be willing to learn new skills and adapt existing knowledge to meet project needs.

Education and/or Experience:

- Proficient in HTML/CSS/JavaScript & JQuery.
- Working knowledge of PHP5 & MySQL.
- Familiar with the Adobe Creative suite (Photoshop, Fireworks, Illustrator).
- Familiar with WordPress & Joomla.

Application Requirements:

In addition to submitting a resume and interviewing, applicants will be required to submit a demonstrative portfolio of past projects, and may be asked to perform a proficiency exercise.

Applicants should send resumes and portfolios to geoff@level8ds.com for consideration.
